

ACCESSORIES

TO SUIT SINGLE OR DOUBLE FIXINGS

- 1) The wall mounted accessories works best if secured to a wall stud or cross brace within the wall, using the screw/s supplied.
- If the wall mounted accessories are to be installed on a tile or plaster wall, anchors and screws should be used.
- 2) Drill holes in desired position and insert wall plugs.
- 3) Remove bracket/s from the accessory. Install bracket by fastening the supplied screws into the wall plugs.
- 4) Place the accessory onto the bracket and firmly tighten grub screw using allen key.
